# OPTIONAL: START UP BOARD GOALS EXERCISE

- 1) Set Goals
  - 1) What do you need to achieve between now and approval? Between approval and opening? In the first year of operations? Set those goals now.
    - 1) Less is more- focus on the 5-7 big buckets of things you know need to be done and that success depends on/ (for example goals around enrollment, facilities, fundraising and hiring)
  - 2) Goals should help you identify:
    - 1) Which committees need more members
    - 2) What skills and characteristics you need in those members
  - 3) Assign responsibilities and timelines for each goal
- 2) Identify the people that you need
  - 1) Determine your ideal size for the board
  - 2) Consider community representation/connections
  - 3) Look for people with key skills tied to goals
  - 4) Are you building a board that reflects the broadest level of ethnic, racial, gender, and geographic diversity?
  - 5) Start- up boards require a special type of person that has enough time, a passion for the mission and are team players
